

Dear Supporter,

In 2014, a new holiday tradition began with the unveiling of “Light the Park”. This event was launched by the Chillicothe Downtown Develop Commission (CDDC) and other community civic groups and businesses.

The effort of the CDDC was to bring a special holiday event to the downtown area, hoping to draw visitors from neighboring communities to enjoy the festive atmosphere of downtown Chillicothe and bring more business to the merchants of the First Capital District.

This year, “Light the Park” is being coordinated by the businesses of the district through Discover Downtown Chillicothe partners, and for 2018 will be the addition of new lighting and ornaments for the city’s Christmas Tree at the entrance to Yoctangee Park.

We need your help, however, to continue this holiday tradition and to make it even better each year. Costs for this event are around \$15,000 and every donation made will be used to “Light the Park”.

Lights on the downtown buildings are facilitated by individuals, tenants and building owners.

This is a community-involved project and annual event – and we need your continued support.

Please consider helping us “Light the Park” again in 2018. Thank you.
